

Meet Sherpa

I want & need a home!

Sherpa is a 6 to 7 yr old Lilac Point Himalayan who hid in bushes outside a Head Start center for 3 yrs...living on kibble left for him *only on days school was open*.

Sherpa must have had a happy home at one time. He's neutered and immediately knew a litter box. Whether he was lost or abandoned, we will never know.

Though he was very unsure at first, he's now happy, trusting, and grateful for being rescued! He has been with his Foster Mom for 3 months; is at last accustomed to being picked up, talked to, brushed and scratched.

He nuzzles, purrs loudly and likes being ruffled like a dog. He's also called Squeakers. He is not a meower, usually only squeaks softly when he says hello. He loves pats and attention while he watches the woods and the local wildlife through the windows.

Sherpa lives on a screen porch because some in his Foster family suffer cat allergies. Please help – starting to get chilly at night in the mountains. He is a lovely, big boy who may be happiest being indoor/outdoor. He's still afraid of being hungry. Can't seem to get enough food for his liking! Sherpa deserves a patient person who will lovingly work to help him continue overcoming his fears, to relax and enjoy life. Don't hesitate to call and hear more about Sweet Boy, Sherpa.
